PROJECTS

Restaurant Website (Team Project)

Developed frontend features using React and collaborated with backend developers.

Personal Portfolio Website

Built a responsive portfolio using React to showcase skills and projects.

French Poem Generator

Developed an AI-powered French poem generator that creates poems based on user input. The project focuses on natural language generation and creative text output.

SKILLS

JavaScript, TypeScript, React, Next.js, Tailwind CSS, Python, AI (Basic), Git & GitHub

EDUCATION

Bahir Dar University BSc in Software Engineering

Expected Graduation: 2027

EXPERIENCE

Frontend Intern at Code Alpha

Worked on real-world frontend tasks including UI design, debugging, and responsiveness.

Frontend Intern at Prodigy InfoTech

Contributed to building UI components and small React features. Improved knowledge of Git workflow and frontend development practices.
